

Try making your own origami by following our step-by-step instructions below.

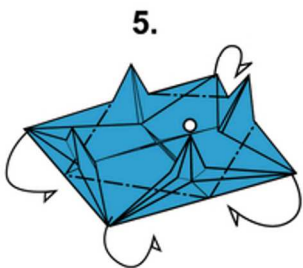

This week it's the lotus flower. Once you've finished, make sure you tweet us your best efforts.....

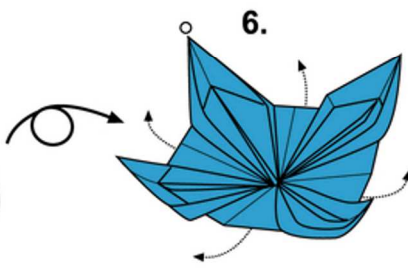

1. Fold in the corners

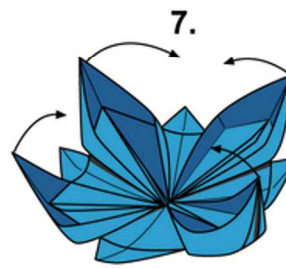

4. Repeat this step for all four sides

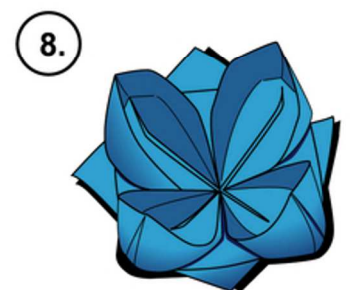

5. With the tips up from step 4, turn the model over and fold back the corners

6. Sink the centre of the model a little and fold out the corners of the bottom layer to form extra petals

7. Finish by giving the flower some shape - close the main section slightly and open out the petals
